# ONCE UPON A TIME ...

«u must liv at all the costs ace.»

**Acclaimed by critics  
[citation needed],  
Dark Soule.Ace changed  
the world as we knew it.  
Before, people walked on their  
earlobes and plastic wrapping  
was the basis of clothing  
material (Stylists, take note,  
it will be back in 20 years).**

**This period of history have  
been completely erased from  
memory by the revelation that  
was this game.**

# DARK SOULE.ACE

**Now, once again, the world  
is shocked by this new game,  
so much that new colors have  
just appeared (such as the  
Emonturas, scientifically proven  
to be the best color of all time  
and putting an end to the  
concept of taste).**

**Dark Soule.Ace 2 is a never  
ending quest that adapt itself  
to the political climate,  
the season, the personality of  
the player and many more  
things. Only three things are  
certain : you must find the  
sacred relik and save your  
magical lover from the claws  
of the Dark Vilain.**

# THE CHARACTERS

DarkSoule.Ace 2 was designed with mainstream appeal in mind and thus use the classical «Actantial model» frequently found in hollywoodian storywriting. So we have a hero, ennemies, helpers, a object of desire, kebab and Tom Selleck.

Your magical lover. She was captured by the Dark Villain !! You must save her QUICK BEFORE IT'S TOO LATE WHY THE HELL ARE YOU READING THIS MANUAL GO GO GO

Lord and/or Emperor Dark Villain must die at all the costs, Ace! His minions Adolf Hitler and Hitler's dinosaur of the 3rd Reich will make you feel a lot of VRONK, TOUCHÉ, WHACK and some AYAYAOUILLE.

Mr Pétrole is the father you've never had. Always with the right words on the tip of his tongue, he'll know how to raise your spirit in the DARKest moments of your quest. Now that a spin-off video game featuring him is in the works, you won't be able to rely on his help and wonderful tips all the time.

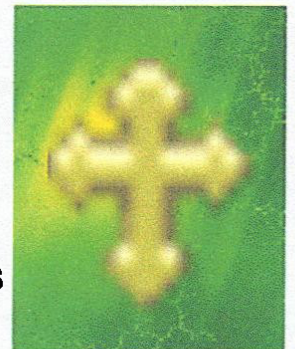

Beware! Bad conduct can bring «objections» from this mysterious character. On what side is he ? You'll have to find out at some point, and being wrong could be fatal.

MJ u were da bes, never forget luv u 4 ever gonna be startin somethin <3<3<3<3

«teh sacred relik of GAWD dat make u invisibl N protect u frum evarythin !!!!1!» is what you need in order to vanquish the terrible Dark Villain and save your magical lover. Right so it's not a character I know but you know THAT DOESN'T MEAN IT DOESN'T HAVE FEELINGS

Dark Zebra Coffre

If your destiny is led by the seal of the Dark Villain in a (nazi) culinary way, you may at some point be in control of Dark Zebra Coffre. BE VERY CAREFUL !!!!

It isn't the knight who's coming at sunset, It's ANOTHER character! Get it wrong and you won't understand anything about the story and think it's only a bad joke that took a lot of time to do. Fortunately, that's not the case, as Dark Zebra Coffre is in some way the key of the dramatic and juicy plot of DarkSoul.ace 2.

Dark Zebra Coffre is, more or less, somewhat, the Dark version of Zebra Coffre (who's present in the game as Michael Jackson, so that's two homages in a row). As you already know since you've read the whole manual by now, Dark Zebra Coffre represent the moral dilemma, the choice. Does he have to enter his tent or can he explore the map? Furthermore: Does he have to suffer the Soufrance Démoniaque? Must he find the sacred Relik? Must he become invisible? Must he eat kebabs while abrogating Hitler's dinosaurs? Does he have to find Ace's Magical Lover?

Yeah. He does.

By the way he's secretly in love with Mineko, likes crosswords and subtle humour, but can't endure bad weather.

Dark Zebra Coffre© is a Papymaking© concept trademark. SOON : the adventures of Dark Zebra Coffre in the land of kangaroos, in bielorrussian VHS subtitled in french. Also, Dark Coffre Zebra the opera : "The terrible choice of Dark Zebra Coffre 7 : The Valley of Cobras"

Oh yeah hey sorry I forgot Dark Zebra Coffre can't get near trees because of a childhood trauma. So think to avoid trees when playing as him, because otherwise don't be surprised if Mr Pétrole is like all angry and stuff and start singing hip hop. Please note I don't have anything against hip hop, it's just often a more violent way of expression, and I think that young people suffer enough violence in their lives to take exemples on gangsters of music such as Puff Daddy, Michael Jackson and Hitler in is Disco period.

All that to say that Dark Zebra Coffre is really one awesome dude, don't miss is bit in the game, I think it's the best part IMO, it's maybe a bit subtle and complex, hard to understand to the less educated mass, but with some effort and an open mind I think that anybody can enjoy this wonderful moment of the game and the character the way he is.

Dark Zebra Coffre was maybe only a shadow in the wheel of the universe, he only made a single turn on the carousel of destiny, barely more significant than the memory of a stranger in the middle of the night, and despite it all, forever, Dark Zebra Coffre, please accept our gratitude. Kisses on the mouth.

# Dark TAGNAN

This mysterious character is the anecdotal piece that you'll need in order to complete the puzzle of life. He's the only one crazy enough to conquer Mr Pétrole when he's going crazy because of the white sauce of the dark kebab trying to get out by the window of his head. Is Dark Tagnan a good or a bad guy? Who is he and where does he come from? I told you, mystery!

## Gaming tip

When he appear, press on all the keys on your keyboard at the same time. You'll unlock additional content : Mr Tagnan vs Dark Pétrole

## Making of

Dark Tagnan is made of the following colors: #fdfdfd, #131313, #9c9c9c, #2c2c2c, #141414. The makers of this game had a hard time deciding between #fdfdfd and #141414 for the 3rd pixel on the up-right.

# Dark HORSe de Dark TAGNAN OF

The Dark Horse of Dark Tagnan is his best friend. They share the same ADN so they laugh simultaneously! ...almost! The small lag between their laughs is due to a degeneration of the left spire of the ADN, made because of the .PNG compression their picture is made of.

## Gaming tip

Dark Hose is useless so there is no gaming tip!

## Be kind to animals

That section was done to please Brigitte Bardot but there's no more place, so we'll wait our trial in court like everyone else.

# CHARACTERS (others)

?

Coffee Cup :

It's the main character of the game. Nevertheless, it's not possible to play him, or even meet him. Indeed, you will quickly understand with the whole philosophical concept that Coffee Cup is the story's most important character.

Coffee Cup lived 1000 years before the game's event. Long ago he led the armies of the Dark and it's told that he's the origin of the kebab's secret. But noone really knows.

A trick on the right page will explain you step-by-step how to meet Coffee Cup.

DLC for Coffee Cup

- Skin Coffee Cup usable only once for 4 seconds : 1899 DSACE points.

(The DLC requires to use DSACE points. If you want to know more about the DSACE points prices, please go on the Microsoft website, it's the same price as the MS points.)

## Unlock Coffee Cup

To understand that Coffee Cup is the main hero of this story, you have to speak to every NPCs and finish the game 4 times, with the good ending, the bad ending, the not finished ending and the good ending once again.

When you begin the game again, you have to find the God's sacred relic which is in one of the game's map, but it has one chance on 300 to appear, proportionally of the game's map number. When this God's sacred relic is your possession, you have to save the game, and begin it again. Find the map that loops and asks you to press Enter. Do absolutly not press this key, and wait exactly 1H35 and 12 seconds before pressing Enter. The game will show back the title screen. Load the previous game and, MAGIC, you now have the God's sacred relic.

Open your inventory, and activate the God's sacred relic. If everything is ok, you will unlock the 151st hidden NPC. I let you find him in the game. When you find him, talk to him. Give him the God's sacred relic. Then he will say you "I would like to drink a good little cup of coffee!"

## Kebab

A meal for which Riven became totally addicted to, by the dark force.

The habituation is worst than any other drugs like tobacco, crack, coke or ecstasy.

Unfortunately, it's only a carrot at the end of a rope you'll never catch.

During your mission, it's possible you are kinda hungry. And there's only one thing you want : a kebab garlik soce. It will turn you into a bait for all the hyper-intelligent dark creatures that want you to be dead.

The kebab, finally, noone knows if it's better to avoid it or worship it, but one thing is sure, it becomes dangerous when the envy to find a kebab is bigger than the one to find the sakred relic or to save your magical lover. You have to resist to this corruption even if OK WELL IT TO GOOD LOL A OTHRE 1 PLS

Anyway, today everbody knows that abusing of kebabs will do you no harm except turning you into a kebab-rotating-spit.

# ITEMS

There's not even a kebab in this shitty country !

Kebab, (also kebab, kabob, or kabab) is a Middle Eastern, Eastern Mediterranean, and South Asian dish of pieces of meat, fish, or vegetables roasted or grilled on a skewer or spit[1] originating in the Eastern Mediterranean,[2][3] where it is mentioned by Homer,[4] or the Middle East,[5][6] and later adopted in Central Asia and by the regions of the former Mongol Empire and later Ottoman Empire, before spreading worldwide. In American English, kebab with no qualification refers to shish kebab (Turkish: şiş kebab) cooked on a skewer,[7] whereas in Europe it refers to doner kebab, sliced meat served in a pita. In the Middle East, however, kebab refers to meat that is cooked over or next to flames; large or small cuts of meat, or even ground meat; it may be served on plates, in sandwiches, or in bowls.

The breeds of kebabs :

-Adana kebabı (or kıyma kebabı) is a long, hand-minced meat kebab mounted on a wide iron skewer and grilled over charcoal.

-Kebab Kenjeh is a meat, specifically and traditionally lamb, dish in the Middle East.

-Döner kebab, literally "rotating kebab" in Turkish, is sliced lamb, beef, or chicken, slowly roasted on a vertical rotating spit.

-Shish kebab (Şiş, pronounced [ʃiʃ], meaning "skewer" is a Turkish word[31][32]) is a dish consisting of meat threaded on a skewer and grilled.

-Testi kebab is a dish from Central Anatolia and the Mid-Western Black Sea region, consisting of a mixture of meat and vegetables cooked in a clay pot or jug over fire (testi means jug in Turkish). The pot is sealed with bread dough or foil and is broken when serving.

# More than a game, an experiment

You just played Dark Soul.Ace2 and perhaps you think you're done with it? Don't, because Dark Soul.Ace2 is full of secrets, details, and little bonuses, hidden and invisible at first sight.

Did you try to observe every vases?  
Did you speak to every characters? And what if some of them gave you side quests?

A vase.

Dark Soul.Ace2 goes much further proposing several reading levels of the story. And what if the relik never existed? Do you ever thought about that? NO, YOU DON'T! And if it only was the symbol of an eternal love repressed by Dark Zebra Koffre?

Mr. Petrole : The Petrole case is moreover interesting from the point of view of the sakred relik.

What does he really want? Do you only imagined to put him in relation with the character that send you in jail? NO ! FOR TIMES NO !

The concept of Dark : The Dark, what it is ? Or should i say, *why* the dark ? The philosopher Virgil Hoenzeilg wrote an analysis essay (Plomb Edition). Indeed yes, the very principle of this work is based on the Dark, and nevertheless we ignore its existence. The Dark, a representation of a demarcation desire, desire to shock an accustomed audiance by the quintessence of the game ?

*"The Dark is, before anything else, a life style."*  
(V. Hoenzeilg)

Richard : During the Richard's arrest, one can notice the half-smile on his face. What does he say to his companion who stayed on the shore? Mystery. The love from his magical lover let him overcome every obstacles. Isn't it the most beautiful present ? Do you ever have only suggested this hypothesis ?

NOOOO!!! NO NO NONONJSINSONONONONON  
DNOINDOABDZIVFNONONON!
